

**CITY OF UNION, OREGON  
PUBLIC WORKS STANDARDS  
2001**

**ENGINEERING RESPONSIBILITY STATEMENT**

These City of Union Public Works Standards - Technical Specifications and Drawings have been prepared by Anderson·Perry & Associates, Inc., for exclusive use by the City of Union on public works projects within the City of Union. The standards are intended to be general in nature and set minimum guidance for projects within the City. Use of these Technical Specifications and Standard Drawings or any portion thereof on projects outside of the City of Union is strictly prohibited without written approval of the City of Union and Anderson·Perry & Associates, Inc.

Electronic copies of these Drawings will be provided to third party licensed Civil Engineers only upon receipt of a certification from the third party that these materials will be utilized only on projects within the City of Union jurisdiction.

All third party users of these documents on projects within the City shall modify and edit these documents as needed to adapt their use for the specific project for which they will be used. All use of these standards shall be under the direction of a licensed Civil Engineer in the State of Oregon. Third party users shall assume full responsibility for their use.

The Technical Specifications shall be reviewed and modified by a licensed Civil Engineer for the specific requirements of the intended project within the City of Union. These modifications shall be by the use of supplemental conditions to the Technical Specifications, signed and stamped by the licensed Engineer.

The Standard Drawings shall be modified by a licensed Civil Engineer for the specific requirements of the intended project within the City of Union. All Drawings used on a project shall be signed and stamped by the licensed Engineer.

A copy of the Technical Specifications with applicable supplemental conditions and a copy of the revised drawings, all stamped and signed by the responsible Engineer shall be submitted to the City of Union for review prior to their use on a project within the City.

All third party users agree to indemnify, defend, and hold the City of Union, Oregon, and Anderson·Perry & Associates, Inc., its partners, agents, and employees harmless from and against any and all claims, suits, demands, losses, and expenses including attorneys' fees accruing or resulting to any and all persons, firms, or any other legal entity on account of any damage or loss to property or persons, including death, arising out of the result of utilizing these standard Technical Specifications and Standard Drawings.

These 2001 City of Union Public Works Standards - Technical Specifications and Drawings were updated in December 2006 and expire December 31, 2008.

**CITY OF UNION, OREGON  
PUBLIC WORKS STANDARDS  
2001**

**ENGINEER RESPONSIBILITY STATEMENT**

I hereby acknowledge and assume complete responsibility for the enclosed Technical Specification based upon my review of the City of Union Public Works Standard - Technical Specifications, in regard to the \_\_\_\_\_ project. I have attached supplemental conditions which identify modifications and edits to these Technical Specifications needed to meet the specific requirements of said project. If supplemental conditions have not been prepared, I hereby take full responsibility for the applicability of these Technical Specifications for the project. The undersigned agrees to indemnify, defend, and hold the City of Union, Oregon, and Anderson-Perry & Associates, Inc., its partners, agents, and employees harmless from and against any and all claims, suits, demands, losses, and expenses including attorneys' fees accruing or resulting to any and all persons, firms, or any other legal entity on account of any damage or loss to property or persons, including death, arising out of the result of utilizing these standard Technical Specifications.

**USE AGREEMENT  
CITY OF UNION, OREGON  
PUBLIC WORKS STANDARD DRAWINGS  
2001**

\_\_\_\_\_ hereby request an electronic copy of the City of Union, Oregon, Public Works Standard Drawings. The undersigned third party user hereby certifies and agrees to use these Public Works Standards on projects only within the jurisdiction of the City of Union, Oregon. It is agreed that these standards will not be used in any form on projects outside the jurisdiction of the City of Union and will not make these standards available to any other outside party or user. The undersigned hereby agrees to modify and edit these Drawings as needed to adapt their use for the specific project for which they will be used. All use of these standards shall be under the direction of a licensed Civil Engineer in the State of Oregon, and all Drawings used shall be stamped by the Engineer. The undersigned shall assume full responsibility for their use and agrees to indemnify, defend, and hold the City of Union, Oregon, and Anderson·Perry & Associates, Inc., its partners, agents, and employees harmless from and against any and all claims, suits, demands, losses, and expenses including attorneys' fees accruing or resulting to any and all persons, firms, or any other legal entity on account of any damage or loss to property or persons, including death, arising out of the result of utilizing these Standard Drawings.
